Program and Activity Planning

In many settings, programmes and activities are important in keeping our clients active and engaged. This would directly impact on the well-being of our clients. A successful programme is the key to this. It is important to measure the effectiveness of a programme to determine if outcomes are met. In this course, participants would learn the guiding principles in designing a programme, activity planning and evaluation methods through activities and case studies.

COURSE DETAILS

20 February 2024
9 am to 5 pm

Learning Objectives

- Understand the difference between programme and activity
- Describe the framework in programme and activity planning
